

# Les nombres de 0 à 130

1. Place les signes > ou <.

$120 \text{ \_\_\_\_ } 102$

$103 \text{ \_\_\_\_ } 130$

$102 \text{ \_\_\_\_ } 112$

$112 \text{ \_\_\_\_ } 121$

$125 \text{ \_\_\_\_ } 123$

$122 \text{ \_\_\_\_ } 112$

$130 \text{ \_\_\_\_ } 113$

$126 \text{ \_\_\_\_ } 127$

$120 \text{ \_\_\_\_ } 102$

2. Décompose chaque nombre. Exemple :  $125 = 100 + 20 + 5$

$115 = \text{ \_\_\_\_ } + \text{ \_\_\_\_ } + \text{ \_\_\_\_ }$

$123 = \text{ \_\_\_\_ } + \text{ \_\_\_\_ } + \text{ \_\_\_\_ }$

$127 = \text{ \_\_\_\_ } + \text{ \_\_\_\_ } + \text{ \_\_\_\_ }$

$117 = \text{ \_\_\_\_ } + \text{ \_\_\_\_ } + \text{ \_\_\_\_ }$

$106 = \text{ \_\_\_\_ } + \text{ \_\_\_\_ } + \text{ \_\_\_\_ }$

$120 = \text{ \_\_\_\_ } + \text{ \_\_\_\_ } + \text{ \_\_\_\_ }$

3. Compte de 2 en 2.

$114 - 116 - \square - \square - \square - \square - \square - \square - \square$

$109 - 111 - \square - \square - \square - \square - \square - \square - \square$

4. Compte en arrière.

$130 - 129 - \square - \square - \square - \square - \square - \square - \square$

5. Calcule.

$100 + 20 + 8 = \text{ \_\_\_\_ }$

$100 + 10 + 3 = \text{ \_\_\_\_ }$

$100 + 20 + 1 = \text{ \_\_\_\_ }$

$100 + 20 + 9 = \text{ \_\_\_\_ }$

$100 + 20 = \text{ \_\_\_\_ }$

$100 + 10 + 8 = \text{ \_\_\_\_ }$

$100 + 10 + 5 = \text{ \_\_\_\_ }$

$100 + 9 = \text{ \_\_\_\_ }$
